

“Changing the Food Game” with Lucas Simons

- Young Professionals Author Series -

While the world focuses its efforts on establishing sustainable and renewable resources we find that options for food expansion are waning. Substantial population growth and dwindling resources force us to take our future into account when planning for a developing world.

Lucas Simons, author of “Changing the Food Game: Market Transformation Strategies for Sustainable Agriculture,” is the founder and CEO of NewForesight Consultancy and SCOPEinsight - two companies focused on sustainable market transformation. He became an Ashoka fellow in 2013. He is also recognized as a Young Global Leader by the World Economic Forum for his achievements in the field of sustainable trade, agriculture, and rural development.

Join the WAC-DC Young Professionals as we host Lucas Simons covering the changing world of agriculture, effective ways of sustainability, and the true process of how our food makes it to our table.

December 3, 2014

MAA Carriage House
1781 Church St. NW
Washington, DC 20036

6:30 PM - 8:00 PM
